## Legislative Partnership Program

The Legislative Partnership Program (LPP) consists of a one-week study program with concentrated exposure to U.S. Congressional practices on committee management, the role of professional staff, the use of support such as the Congressional Research Service, legislative drafting, and how the U.S. legislative system engages stakeholders for inclusive policy-making. The Indonesian parliamentary staffers also study substantive policy issues related to their committee's scope of jurisdiction.

The first LPP was launched and conducted in March 2014 with Indonesian Parliament Committee 1, **Foreign Affairs and Defense**. The second LPP was held successfully in November 2016 with Indonesian Parliament Committee 11 on **Finance, Banking Trade, and National Development**.

The third LPP is planned to be held in June 2019, with a specific focus on **Energy and Mineral Resources**. The selected cohort will acquire knowledge and skills to make positive contributions to Indonesia's legislative development in the Energy and Mineral Resources sector. The program is geared towards applicants that play a strategic role in their current position and have leadership potential in parliament and/or government.

The program will be conducted in partnership with U.S. House Energy and Commerce Committee, the U.S. House Foreign Affairs Committee (HFAC), and the Secretary General of DPR.

# Indonesia - U.S. Council on Religion and Pluralism

---

The Indonesia – U.S. Council on Religion and Pluralism was established in Yogyakarta in 2016. The Council consists of a select group of committed non-government leaders from the religious, academic, media, and civil society sectors from Indonesia and the United States.

The Council defined and adopted three priority areas for its focus:

1. Increasing religious understanding, mutual respect, and collaboration;
2. Identifying and fostering positive civic and religious education models that promote analytical thinking and respect; and
3. Empowering civil society to deter violent extremism.

Since its establishment in August 2016, the Council with the assistance of USINDO, has conducted extensive research in identifying potential donors to fund the programs of the Council's three Working Groups. From this research, the Council made funding proposals to two potential donors: U.S. State Department's Bureau of Democracy, Human Rights and Labor and the Carpenter Foundation. The Council is working on how to address funding issues in 2018. Within the past year, USINDO has conducted series of discussion with U.S. Embassy Jakarta on exploring possible funding.

In addition to developing long-term project to be considered by prospective donors, the Council assisted several meetings below from October 2017-October 2018:

## **The 70<sup>th</sup> Anniversary of U.S.-Indonesia Diplomatic Relations in 2019**

In December 2019, and throughout much of 2019, Indonesia and the United States will celebrate the 70<sup>th</sup> anniversary of US-Indonesia diplomatic relations (1949-2019). As the U.S. and Indonesia have forged a robust relationship throughout the past 70 years, and as USINDO is the only organization exclusively devoted to the US-Indonesia relationship and mutual understanding, USINDO plans to create a special series of events to commemorate our bilateral strategic partnership, to be conducted in complementarity with the two governments.

For the 70<sup>th</sup> anniversary of US-Indonesia relations, USINDO will create a series of Open Forums from January to December 2019. This series will help inform the public and especially youth on historical pivotal points of the bilateral relationship in various sectors including: economic, political, security, military, and cultural.

USINDO plans to hold regular Open Forums leading up to December 2019, highlighting different topics in the bilateral relationship so that the richness and strength of the US-Indonesia bilateral relationship throughout both good times and difficult ones is better understood by all. USINDO Washington DC and USINDO Jakarta are working in consultation with the two governments towards these ends.

To complement the Open Forum series, USINDO plans to hold an Instagram Competition and a community-based project, U.S.-Indonesia Inspirational Class, where both events intend to engage millennials and younger audiences. Through these series of events, USINDO expects to expand its audience base and network to all generations.

## Social Media Presence

In addition to redesigning the website, USINDO has also made efforts to be more active in social media outlets, including Instagram, Facebook, and Twitter. The effort was implemented more aggressively on Instagram starting in September 2018. In the span of one month, USINDO's Instagram account has seen at least an 80% increase in followers from the starting follower count then. The number of followers still need to be improved and USINDO Jakarta office has been developing strategy to increase our outreach. These social media presences also supported by a more regular update in our Website and sending feature/stories or newsletter on USINDO Programs and Activities to our mailing list.
